New in the assortment

Simply brilliant

Bero Thane HS420 3000 Series was developed especially within the VOC standard of 420g/l. The product can be used for damage repairs of commercial vehicles and is also suitable for fleet design, chassis- and bodywork building.

A leaflet already has been sent to all EU customers. In case you did not receive this or if you have any questions regarding the new 3000 series, please do not hesitate to contact our Sales Office: +31 (0)320 292200.

"Valspar Industrial Line"

In view of the rising demand for applications outside the car refinish market, De Beer Lakfabrieken B.V. has decided to introduce two industrial product lines under the name of: **Valspar Industrial Line.**

- The Valspar IC product line is a basecoat/clear-coat system.
 - The Valspar MI product line is a high-quality 2K acrylate/polyurethane system.
- A range of primers, hardeners, clear paints and thinners is also available for these systems.

The Valspar Industrial Line is supported by electronic colour documentation. For the MI line, a colour fan deck is available with a limited selection of colours, including RAL colours. At present, there is no colour documentation available for the IC line.

De Beer Lakfabrieken B.V. is introducing these industrial lines next to the car refinish products. Under the terms of EU legislation 2004/42/CE, we are required to ask our clients not to use and/or sell Valspar Industrial Line products for automotive refinish applications.

De Beer Lakfabrieken B.V. will ask you to sign a declaration to confirm the acceptance of the above statement. For more information, please contact our Sales Office at: info@debeerlakfabrieken.com or call +31 320 292200.

HS420 ClearCoat (VOC-compliant)

As already announced in our newsletter of February 2007, High Solid S420 ClearCoat is now available in small and large pack.

Additions/updates to colour documentation

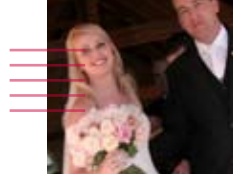

As from 1 May, the following additions/updates are available:

- ICRIS CD-rom
- Update ColourBox
- Connex CD-Rom
- Microfiches in the series: 400, 500, 700 (last time)

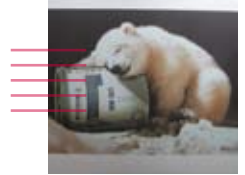

In May, the updates for which you have registered will be sent to you with current orders. If you do not have any orders on hand, we shall send them separately. If you have not received anything by the middle of June, please let us know.

NEWS THAT GRABS YOU

Microfiches

In May 2007 the final update of the microfiches will be issued (400, 500, 700 and vehicle colours). We would strongly advise you not to use these microfiches any more after 1st of January 2008 and to order our ICRIS CD before the end of the year.

Addition Colour Box

A year ago we introduced our new Colour Box to our clients. The response was very good; nevertheless we have received some reactions concerning the colour accuracy of some chips. It's obvious that we aim at providing the best possible appliances. Therefore we have decided to replace some chips by new, better chips. Consequently the next update will contain more colour chips than you are used to from us.

We ask you to incorporate the new chips into your Colour box a.s.a.p.

LU REGULAR MIXING COLOUR

Due to the substantial risen, number of formulas we have decided to treat mixing colours Xirallic Blue and Gold no longer as LU (Limited Use) tinters but as regular mixing colours. This will lead to the following changes in product and part codes:

	Productcode will switch to	productcode	partcode
Berobase 500 series	LU 5-72	MM572	9572/1
	LU 5-73	MM573	9573/1
Waterbase 900 series	LU 9-72	MM972	9972/.5
	LU 9-73	MM973	9973/.5

The survey of used Xirallic colours in formulas is no longer attached, but only available on the website under LU tinters.

Waterbase Colours

The 0.5 L WaterBase/Ecobase Colours 900, 919, 929 and 913VC will switch to 1L. This will also lead to changes in product and part codes.

SHORT NEWS

Modification E-mail addresses

Shortly a change will take place in the computer system of De Beer Lakfabrieken B.V. A consequence for you will be that the e-mail addresses of the employees of De Beer Lakfabrieken B.V. will change. More information will follow in our June newsletter.

Waterbase Colours

The 0.5 L WaterBase/Ecobase Colours 900, 919, 929 and 913VC will switch to 1L. This will also lead to changes in product and part codes.

De Beer Website

All barcodes for paint products are from today available on our website.

Wedding 6th of January 2007 in Australia

Michael Barnes and Jade Dearie were married on Saturday 6th January 2007. The groom is Financial Controller for De Beer Australasia Pty Limited.

SPECIAL PROMOTION ITEMS

Watch in gift box (art. No. 54-039)

We offer you the possibility to order a watch with the De Beer's logo. This watch is fit with a precision quartz clockwork, waterproof up to 30 meters and has a calf's leather wristband. The watch will be packed individually in a gift box for the price of €28,00 each.

Mouse pad De Beer

This mouse pad with De Beer logo is made out of aluminum and has a rectangular shape. The dimensions are 200 x 200 2,5 mm. This mouse pad can be ordered for €19,50 each with a minimum purchase of 5 pieces.

Both items can only be ordered if there is sufficient interest. Therefore we request you to place your order before the end of April. You can do this through our Order Office. After placing your order you will be informed about the delivery date. We ask you to take into consideration that it will take approximately 2 months before these items will be delivered.
