

EXPERIENCE THE POWER OF COLOUR

WATERBASE 900+ SERIES UPDATE

DeBeer Refinish is set to add four new toners to the WaterBase 900+ Series. Updates of the colour formulas in ICRIS will start from 5th April 2023.

MM9283 METALLIC BRIGHT ORANGE

Product code	MM9283
Article nr.	99283/5
Contents	0.5L
Per box	3

An orange shade with great depth as seen in orange metallic finishes, for example Nissan EBG Orange Metallic and GM 437N Fusion Metallic.

The MM923 Metallic Bright Orange will be rationalised. All 400 colour formulas containing the MM923 will be reformulated with MM9283. This is not a direct replacement, always refer to the formulas in ICRIS.

MM9255 TRANSPARENT RED ORANGE

Product code	MM9255
Article nr.	99255/5
Contents	0.5L
Per box	3

A deep orange toner with high transparency, as seen in popular car colour formulas such as the Renault EQB.

The toner can be used in combination with solid and effect toners to achieve a clear and vibrant finish – and is featured in 20 effect colour formulas.

59-21 ARCTIC GLASS

Product code	59-21
Article nr.	59-21/11
Contents	110 mL
Per box	1

This transparent glass flake is mainly used in light effect colours.

The glass flakes create a similar sparkle effect seen in colours from Jaguar, Land Rover, Honda and Mitsubishi. 57-21 Arctic Glass is featured in 67 colour formulas and comes in a 110 mL package.

59-22 DESERT GLASS

Product code	59-22
Article nr.	59-22/11
Contents	110 mL
Per box	1

A silver-coated glass flake for use in dark effect and metallic colours.

The silver-coated particles enhance the sparkle effect, making it perfect to match OEM colours from Ford, Nissan and Volkswagen. 59-22 Desert Glass is featured in 19 colour formulas and comes in a 110 mL package.
