COLOUR MATCH  
AND SAVE TIME

# COLOUR UNDER CONTROL

## COLOUR UNDER CONTROL

### OVER 100 YEARS' EXPERIENCE

For over 100 years, DeBeer Refinish has stood for quality, reliability and progress in colour technology. That experience is reflected in our colour tools, guides to match every OEM and custom colours.

### PRECISE AND EFFICIENT

Every colour match should be perfect. That's why we invest an unparalleled amount of time and energy in the development of our colour technology. We gather OEM colour information, highlight the detail differences between the various car manufacturing sites and... have a wide range of colour tools.

## VALSPAR SPECTROPHOTOMETER

### EXACT COLOUR MATCH IN AN INSTANT

The Valspar Spectrophotometer is a quick and precise tool for an exact colour match. The tool measures a colour and links it to an extensive ICRIS database. This time-saving colour tool has different languages and is easy to calibrate. Valspar's colour experts conduct ongoing research and add information to the database every day. Weekly updates ensure that the latest information is always at your fingertips. Further information? Ask for a copy of the special Valspar Spectrophotometer brochure!

Tip: Use the Coarseness Selector alongside the Valspar Spectrophotometer. This is a fan deck with six examples for selecting the right coarseness for effect and metallic colours.

#### ITEM NUMBER

- 66-360 Valspar Spectrophotometer
- 64-002 Valspar Coarseness Selector
- 66-361 Valspar Spectrophotometer Cover

## ICRIS COLOUR INFORMATION SYSTEM

Practically every single OEM-colour formula is available in ICRIS, our patented colour information system. The software has a user-friendly interface and can be connected to the Valspar Spectrophotometer and our scales. ICRIS is an indispensable tool for every professional refinishing company.

#### ITEM NUMBER

- 65-000 DeBeer Refinish ICRIS Installation CD

### DETAILED TINTING UNDER CONTROL

Colour tinting with the help of the DeBeer Refinish Tinting Guide. The Tinting Guide is a unique combination of the mixing colour card and the colour wheel poster. It includes:

- original sprayed samples with a complete overview of solid, metallic and effect colours
- an indicator that shows the effect of adding different layers of black
- an effect coarseness selector to find the right coarseness for effect and metallic colours
- a handy non-permanent marker pen to determine the angle for face, flop1 and flop2.

Visit [www.de-beer.com/tintingguide](http://www.de-beer.com/tintingguide) for an explanation on how to use this colour tool. Specific training courses can be followed on your premises or at one of our Valspar Business & Technical Centres. The Tinting Guide is available for the DeBeer Refinish Waterbase 900+ Series and the BeroBase 500 Series.

#### ITEM NUMBER

- 63-090 DeBeer Refinish Tinting Guide Waterbase 900+ Series
- 63-050 DeBeer Refinish Tinting Guide BeroBase 500 Series

## VALSPAR COLOR BOX

The Valspar Color Box contains the colours of practically every car make and model. With this enormous palette of 105 colour fan decks containing over 7,000 spray colour samples, you'll be sure to find the right colour. This tool (classified by car manufacturer) enables you to visualise the different versions of original car colours - without having to take a test sample! Updates are released three times a year.

#### ITEM NUMBER

- 6098026 Valspar Color Box (version June 2015)

## VALSPAR AUTOMOTIVE COLOR INFORMATION MAP

The Valspar Automotive Color Information Maps make matching colours easier. This colour tool includes three colour books with sprayed samples that provide a reliable picture of the finish. Find colours by family or without a code or offer your customers a wide variety of colour options. The colour maps are available for solid and effectcolours and single stage effect colours\* from the following series:

- WaterBase 900+ Series
- BeroThane HS420 3000 Series
- BeroMix 2000 Series
- BeroBase 500 Series

### ITEM NUMBER

- VGG.NP001 Valspar Automotive Color Information Map-1, Solid Colors
- VGG.NP002\* Valspar Automotive Color Information Map-2, Single Stage Colors
- VGG.NP003 Valspar Automotive Color Information Map-3, Base Coat Colors

\*Only for the North American market

## MIXING COLOUR CARD

The mixing colour cards provide a complete overview of the DeBeer Refinish mixing colours, in full tones and a 50/50 mixing ratio with white. The cards are available for the BeroThane HS420 3000 Series and the BeroMix 2000 Series.

### ITEM NUMBER

- 61-030 DeBeer Refinish Mixing Colour Card BeroThane HS420 3000 Series
- 61-02000 DeBeer Refinish Mixing Colour Card BeroMix 2000 Series

## VALSPAR ORIGINAL MOTOR AND FANTASY COLOR MAP

Are you looking for the right colour for a motorbike? If so, the Valspar Original Motor and Fantasy Color Map is available for you. This map contains samples of the most important motorbike colours, based on original examples. The Valspar Original Motor and Fantasy Color Map should only be used as a reference. Finding an exact match requires the experience and colour expertise of the refinisher.

### ITEM NUMBER

- 64-003 Valspar Original Motor and Fantasy Color Map

## VALSPAR RAL COLOR SWATCH

With the Valspar RAL Color Swatch, you'll find the right match among RAL colours. With over 200 coated strips and the associated colour formula, you'll be able to match nearly every RAL colour.

### ITEM NUMBER

- 64-001 Valspar RAL Color Swatch

## COLOR COMPUTER SYSTEM EX

The Color Computer System EX is a Zone 2 approved computer that can be safely used in bodyshops and mixing rooms. The computer is dust-resistant and easy to clean. The hardware has been optimised for using ICRIS software. To ensure that you meet local legislative requirements, check in advance to see what zone approval is required in your country or region!

### ITEM NUMBER

- 66-385 Color Computer System EX

## 7.1 KG SCALES

For precise measurements down to 0.1 grams, use the Mettler 7.1 kg scales. This measurement tool is a standalone appliance, but can also be used in combination with the Color Computer and ICRIS software.

### ITEM NUMBER

- 66-004/90 Mettler 7.1 kg scales

## COLOUR SUPPORT FORM (CSF)

The Valspar Colour Support Form (CSF) is a high-speed service for our partners. They can place questions to our colour experts online. And because Valspar has operations across the globe, the questions are always answered quickly. This gives refinishers the speed and flexibility they require.

**NB:** If you can't find the right colour match despite all the colour tools, Valspar will send you the right formula within 48 hours of receiving a colour sample!

## COLOUR TRAINING COURSES

To enhance your colour matching expertise and improve your techniques and productivity, try one of our professional training courses. A colour training course will provide you with all the know-how and skills you need to make the perfect colour matches. It goes without saying that colour tools such as the DeBeer Refinish Tinting Guide and the Valspar Spectrophotometer form an important part of the training courses. The courses can be done in-company or at one of our Valspar Business & Technical Centres.

## PANELS

To decide on colour formulas, Valspar also uses original car panels. Car panels donated from around the world help us perfect our colour information. The Global Color Technology Lab processes the colours of original car panels (up to five years' old) into a colour formula. For more information on car panels, email [colour@valspar.com](mailto:colour@valspar.com).

## FURTHER INFORMATION?

For more information about colour tools, training courses and other DeBeer Refinish products, please contact your local representative.

### DEBEER REFINISH
