

EUROPEAN
QUALITY AND
EXPERTISE
SINCE 1910

PROGRESS IN
COATING TECHNOLOGY

A vintage cream-colored convertible car, likely a Rolls-Royce Phantom II, is parked on a dirt road in a desert landscape. The car is shown from a front-three-quarter view, highlighting its large chrome grille, round headlights, and wire wheels. The background features a vast, arid landscape under a clear sky.

DEBEER REFINISH SINCE 1910

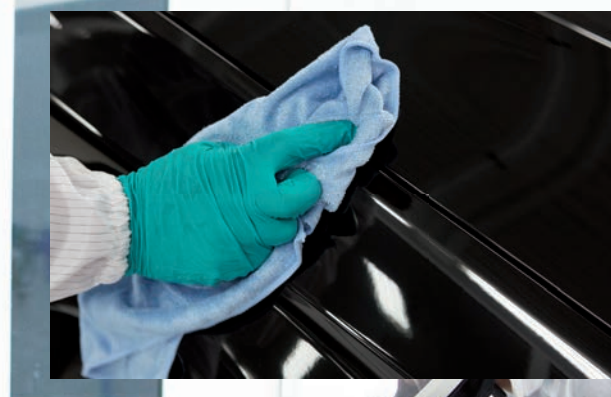

For more than 100 years now, DeBeer Refinish has stood for quality, reliability and progress in colour technology. You can receive the benefits of our expertise by using the complete, high-quality product range. Make history by turning every job into a masterpiece.

PROGRESS? DEBEER REFINISH!

DeBeer Refinish can deliver a complete solution for the car repair sector. The products, training programmes and technical support all help improve profitability through efficiency. These comply with the latest legislation and high company standards ensuring your work can be carried out keeping the environment in mind

DeBeer Refinish provides VOC compliant mixing colour systems and a wide range of supplementary products, from cleaners to putties, primers to clear coats. A customised package that makes your job easier. DeBeer Refinish means progress for your company. And not just because of the excellent products, but also because of the professional and conscientious support of

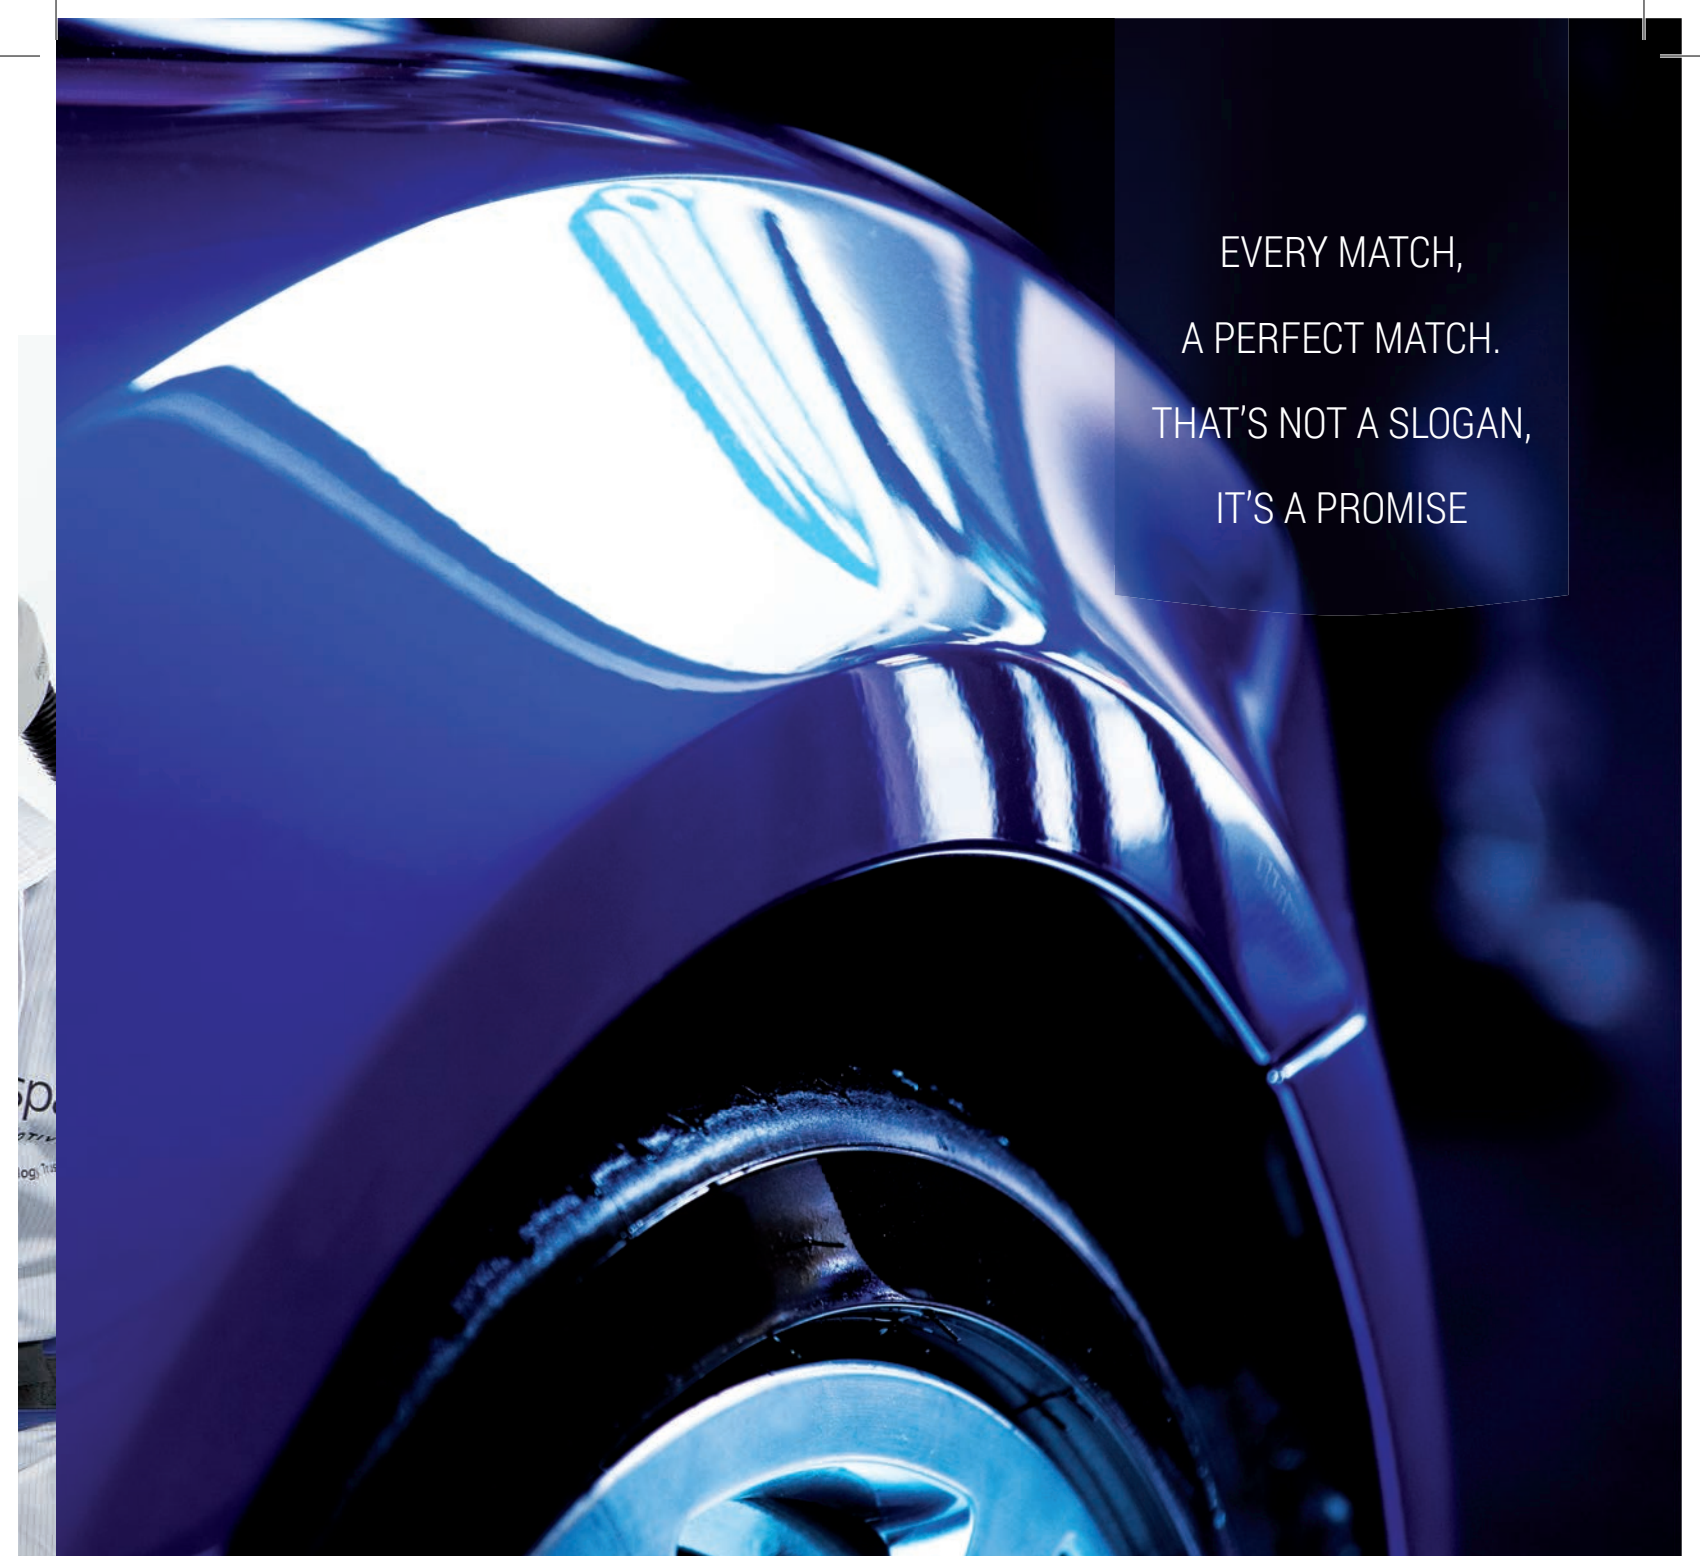

dozens of colour and application specialists, who are more than happy to share their vast expertise with you.

TOGETHER WE CAN ACHIEVE MORE

DeBeer Refinish offers more than just excellent products. Customers can take specific training courses at one of the six Business & Technical Centres we have around the world. We can also share our expertise in the field of sales, marketing, business processes and organisation with businesses in the automotive refinish sector. In that way, we are always progressing.

DEBEER REFINISH USERS ARE NOT JUST
OUR CUSTOMERS, THEY'RE OUR PARTNERS

A close-up, artistic photograph of a car's front end, focusing on the headlight and wheel. The car is a deep blue color, and the lighting creates strong highlights and shadows, emphasizing the curves and textures of the bodywork and the spokes of the wheel.

EVERY MATCH,
A PERFECT MATCH.
THAT'S NOT A SLOGAN,
IT'S A PROMISE

COLOUR IN OUR BLOOD

Every colour match has to be perfect, which is why we invest huge amounts of time and energy in developing our colour technology. We collect OEM colour information, map out the differences in detail between the various production sites, and with the Valspar Spectrophotometer, we have developed the most precise colour-matching tool.

PERFECT MATCH

There is a range of different DeBeer Refinish colour tools available. Our digital ICRIS system has tens of thousands of colour formulas, while the Valspar Color Box offers colour fans with nearly 10,000 colour samples. The Valspar Color Maps and the Valspar Spectrophotometer help you make the right colour match. Does your particular colour question still remain unanswered, you can send a sample to our colour laboratory and we will produce the perfect colour formula within a few working days.

DEBEER REFINISH: COMPLETE IN REFINISH

FROM BARE METAL TO THE FINISHING TOUCH

No matter the application, DeBeer Refinish is all you need. DeBeer Refinish offers a complete range of high-quality products. From bare metal to the finishing touch, every layer is perfect with DeBeer Refinish. On this page, you find our assortment of products which give you the advantage in quality, efficiency and ease of use. You will also find extensive product information in the DeBeer Refinish product catalogue and on www.de-beer.com.

CLEANING AGENTS

Cleaning is an important part of any job. DeBeer Refinish has cleaners for your spray equipment and for those surfaces in need of repair.

PRIMERS, SURFACERS AND PUTTIES

Our wide range of primers and surfacers comprises a wash primer, an epoxy primer and a 1K plastic primer, along with various surfacers such as 2K, MS and HS Surfacer in various shades of grey. If you need a putty for your job, then Valspar Automotive has exactly the one to meet your needs.

HARDENERS

DeBeer Refinish has universal hardeners that can be used in combination with several other products. This means that you can do a range of different jobs with only a modest supply of hardeners.

THINNERS

DeBeer Refinish thinners have been developed to offer the product optimal performance and the versatility the end user requires.

WATERBASE 900+ SERIES

The WaterBase 900+ Series is a flexible water-based system. It produces vibrant colours with a striking natural clarity and excellent cover. Excellent colour precision and quickly ready for use.

BEROTHANE HS420 3000 SERIES

The BeroThane HS420 3000 Series has been specially developed for spraying private as well as commercial vehicles. It is a 2K HS polyurethane mixing system that meets the requirement for reducing volatile organic compounds.

CLEAR COATS

The DeBeer Refinish clear coats turn every job into a masterpiece - under all conditions, because the range includes quick-drying and air-drying variations.

VARIOUS

Using additives, you can influence specific characteristics such as elasticity, drying speed and texture. Additives can be used in combination with all coatings, including top coats and clear coats.

DEBEER REFINISH

A Valspar Automotive brand

DeBeer Refinish is a Valspar Automotive brand. Valspar Automotive is part of the listed Valspar Corporation. Founded in 1806, this parent company is one of the world's largest coating manufacturers. Valspar Automotive manufactures and distributes DeBeer Refinish car refinishes.
