

BREAKTHROUGH FOR BRIGHT
RED CARS WITH 'CANDY' EFFECT

**EXCELLENT COLOUR
MATCH FOR
EVERY COLOUR**

“ HITTING THE BULL’S-EYE IS
THE ONLY THING THAT COUNTS ”

Jim Johnson | Archer

MULTI-LAYER EFFECT IN THREE SIMPLE STEPS

QUICKER, EASIER, BETTER.

BRIGHT RED COLOURS WITH 'CANDY' EFFECT IN AN INSTANT.

1 RED METALLIC UNDERCOAT

The first layer you apply is a tinted effect layer that immediately gives the desired finish and is identical to the car's original colour.

2 TINTED TRANSPARENT BASECOAT

The second layer is a lightly tinted basecoat. This layer provides additional depth and colour accuracy. Moreover, it's easy to spray.

3 CLEAR TOPCOAT

The final layer is a 100% transparent topcoat, which provides a bright end result with lasting protection.

UNIQUE 3-LAYER SYSTEM FOR AN OUTSTANDING EFFECT

Having expanded our colour system with a new mixing colour, we can now give you an easy way to achieve the perfect colour match on bright red cars with a 'candy' effect. Because of the colour-matched undercoat, complex intermediate mixes are no longer necessary. Now you can achieve an unparalleled end result: a deep, bright red metallic colour, with an even finish, that perfectly matches the car's original colour.
